CEUK HANDSAWS

SHARP & ROBUST...
WHAT KIND OF SAW
PERSON ARE YOU?

CUTTING-EDGE TROJAN HANDSAW

NEW LEFT & RIGHT HANDED USER DESIGN

Built-in rollers and scabbard locking mechanism allow the handsaw to be secured firmly.

Engineered for the professional, Trojan handsaws include a robust blade for cutting precision combined with a contoured rubber grip handle that reduces fatigue and slippage.

Features:

- High carbon tool steel blades.
- 7 teeth per 30mm.
- Curvature ground, hard-chrome plated blade tips.
- Impulse hardened for added durability.
- Quick, easy to assemble spare blade change.
- Secure saw-to-scabbard locking mechanism.
- Built in sheath rollers for an easy one handed release.
- Scabbard belt loop attachment.
- Highly recommended with the Phat Strop™.
- Contoured rubber grip ABS resin handle.
- Additional blades available.

Feedback

- "The blades have a good sharpness and produces a smooth clean cut."
Mike Johnson, Professional Arborist
- "Pricewise they are an excellent purchase."
Andy Thomas, Orchard Grower
- "The blade performs as good as any other quality handsaw I have used."
Stuart George, Arborist Tree Climber
- "The Trojan 360 cuts a 6" branch beautifully"
Andrew Bennett, Stumpcrunchers

Code	Spare Blade	Blade Length	Blade Type	Weight	Tooth Pitch

THE ORIGINAL CEUK PHAT STROP™

What is the Phat Strop™?

The Phat Strop™ is a NEW industry standard tool attachment that has a **universal application with any tool** up to a maximum weight of 2.5lb/1.25kg.

Just about every commercial or domestic user working with tools from any height or work platform above 2.5 metres needs a Phat Strop™ to **comply with health & safety general duties of care.**

DON'T DROP IT,
PHAT STROP IT™

Features:

- Heavy Duty 1-1.4m extension lanyard.
- Dual action carabiner fits through scabbard/tool holster and directly onto a harness or belt.
- Cord loop can be thread through the eye of the tool or secures firmly around the tool handle.
- Tubular nylon webbing and lock stitching at both ends gives added durability.

So what's in it for me the user?

- Prevent dangerous, sharp or heavy tools being dropped from any height that may cause serious injury or property damage.
- Avoid damage to tools caused by dropping on hard surfaces.
- Create peace of mind for employer health and safety obligations and reduce the risk of liability.
- Reduce the risk of financial loss for any injury/damage caused by a dropped tool.

Recommended with pruning handsaws, secateurs, hammers, simply any hand tool weighing up to 2.5lb / 1.25kg used during working conditions at a height.

*Carabiner not to be used for climbing. Not for use with a chainsaw.
Avoid using the Phat Strop™ at maximum lanyard extension.*

CEUK CUTTING-EDGE **NOBLE 180**

Multi-purpose folding saw designed with a secure locking release button for personal safety and sturdy cutting control.

- 180mm high carbon tool steel blade.
- 7.5 teeth per 30mm.
- Moulded ABS resin comfort grip handle.
- Recommended cut up to 3-4" diameters.
- Handle eyelet ideal for Phat Strop™ attachment.
- Additional blades available.

Feedback

"It's sharp and a handy bit of kit I use on all my jobs."

Dominic Baccelliere, Dominic Garden Services, Landscape Gardener

"It easily cuts through hedgerow & branches up to 3" in diameter."

Helen Martin, Gardening Enthusiast

Code	Spare Blade	Blade Length	Blade Type	Weight	Tooth Pitch
